In Fuel.

Will take a welding heat
on a three-inch round
iron in five minutes. . .

Only \$16.00

ROOTS' ACME FIRE-BED AND TUYERE.

(We are constantly getting such Testimonials.)

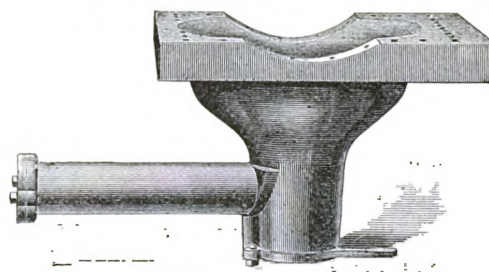

P. H. & F. M. ROOTS Co., Connerville, Ind.

Gentlemen:—Regarding your Patent Combined Fire-Bed and Tuyere Iron which I recently bought and now have in use in my shop, I beg to say that it has given complete satisfaction. I have been blacksmithing for twenty-eight years, and I find it to be the best thing for the purpose intended that I have ever seen. I would not now do without it, and I expect to buy another one very soon, and I will make a sworn affidavit to this effect.

Respectfully,
(Signed)

Madison, Ind., January 22, 1896.

ANDY DONLAN, 311 Broadway.

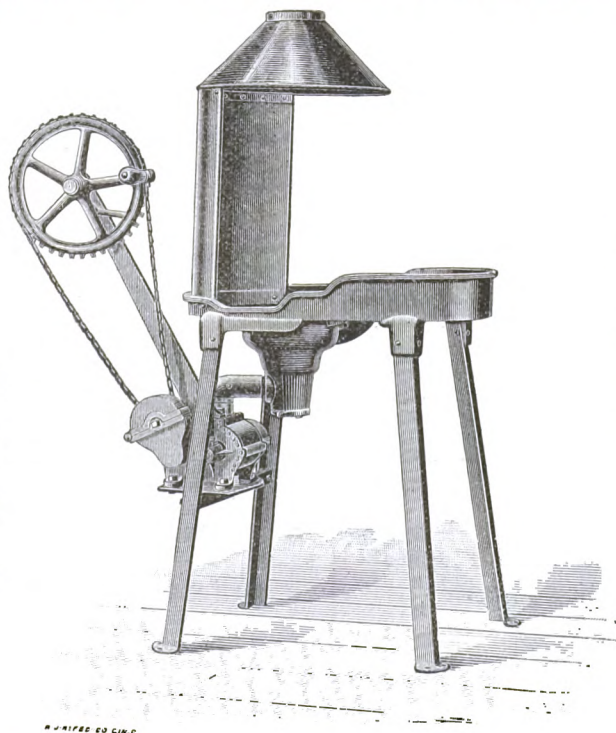

No. 3 Size, adapted to general work, \$4.20.

No. 4 Size, adapted to general and heavy work, \$5.00.

ROOTS' ACME PORTABLE FORGE.

Most Durable
Forge Made.

Will turn off enough
more work and save enough
coal in short time to pay
for itself.

Sipe Springs, Texas, Jan. 20th, 1896.

P. H. & F. M. ROOTS Co., Connerville, Ind.

Gentlemen:—Please send me your net cash price of your No. 3 Portable Forge. I have a No. 5 and it is a daisy. I think it is the best forge in Texas. I would not take five times its cost if I could not get another. Answer at once.

Yours truly,

(Signed) JEFF MORGAN.
